- vocab sheets
- classroom polling site
- and more!

<http://bit.ly/Pj5iTI>

CamDictionary

Amazing translator! Point camera at a word or phrase and see the translation immediately!

<http://bit.ly/PVyM4R>

Sound Magnifier

Stick your iPhone/Android/Blackberry or any music player in a **GLASS** (yes, a drinking glass!) When you're playing music, this acts as a funnel and amplifies the sound. Take an elongated shape, narrow at the base, fire up the music app and put the player in the glass. Magically the sound will be amplified! – Try it. It works.

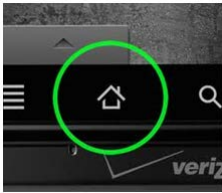

Quick Menu Options

Press and hold the Search Button (or double tap the Home Key on a Samsung). This will give you a quick-menu of options such as Voice Search, Quick Text, or a camera option.

Quick Option - Most Recently Used Apps

Press and hold the Home Button to get a quick view of the most recently used apps.

Copy, Quick Look Up and Share

Get a menu of options for Copy, Quick Look Up & Share. Use the “handles” on the highlighted text to grab more or less text.

Put Apps in Folders

Press and hold in any empty space on your Android screen. Personalization menu will pop up. Look for folders and create new folders for app categories (on newer systems, press & hold an app then drag on top of another app).

Web Browsing

Press and hold a hyperlink to get a menu of options to Open. Open in a new Window, Bookmark, Share, etc.

Web Page Bookmarks

- With web page open, hit Menu Button.
- Get choices to Add Bookmark
- Use Bookmarks choice to view saved websites
- Use the Windows choice to see how many web pages you have open, or to open another

Swiftkey App

- Touchscreen keyboard for Android
- Learns your words and phrases
- Customizable

Keyboard Tips

- Double tap the space bar to insert a period followed by a space
- Press and hold any key to view other characters available, then slide your finger up to the character required

Note Everything

Free or \$3.99 Not the same as SoundNote, but has audio notes, picture notes, etc.

<http://bit.ly/P8XOC7>

www.scoop.it

Scoop.it!

This is a website for sharing (Somewhat like Pinterest). Do a search for any topic, and find some information that might be useful. An app page that I use is:

<http://www.scoop.it/t/android-apps-for-education> - Android apps for education
