

ChromeVox Keyboard Shortcuts Reference Page

(Note: for Mac replace 'Alt + Control' with 'Command + Control')

Speech Commands

- Control = Stop speaking the current text
- Search = Stop speaking the current text
- Alt + Control + Equals = Increase rate of speech
- Alt + Control + Minus = Decrease rate of speech
- Alt + Control + Apostrophe = Increase pitch of speech
- Alt + Control + Semicolon = Decrease pitch of speech
- Alt + Control + Right Bracket = Increase speech volume
- Alt + Control + Left Bracket = Decrease speech volume

Sticky Mode (not yet available for non-Chrome OS)

Sticky mode allows you to omit the alt+control combination with commands.

- Double-tap Search key = Enable/Disable sticky mode

Basic Navigation

- Alt + Control + Down = Navigate forward
- Alt + Control + Up = Navigate backward
- Alt + Control + Right = More detail
- Alt + Control + Left = Less detail
- Enter = Activate current item
- Space = Force click on current item

Getting Help

- Alt + Control + H = Open ChromeVox User Guide
- Alt + Control + Period = Show ChromeVox command help
- Alt + Control = Hide ChromeVox command help
- Alt + Control + Forward Slash = Enable/Disable search

Browser Commands

- Alt + Control + O + K = Open keyboard explorer
