

Chrome Browser Accessibility

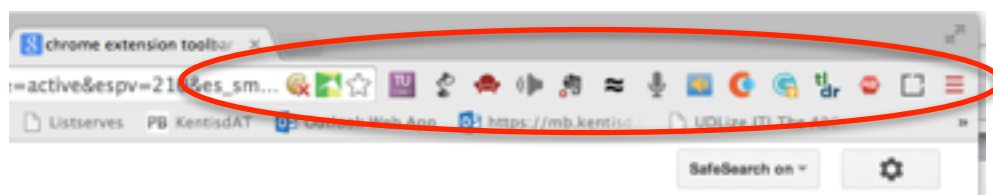

Kent ISD - Assistive Technology

Chrome Apps: Applications that run 'inside' the Chrome browser, as a stand-alone activity. (The browser comparison to an iPad app.)

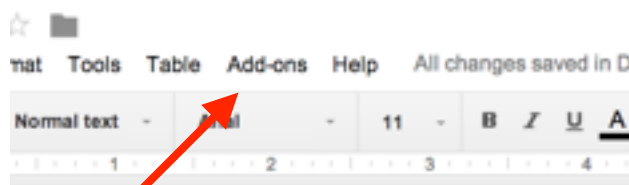

Chrome Extensions:

Tools or features that work across websites. They extend or supplement the functionality of a website.

Google Docs Add-Ons: Tools or features that work with a Google Doc, extending or supplementing the features document.

of that

To find them: [Chrome Web Store](#)

To manage them: Stay constant across computers when signed in to Chrome

- > Sign in to Chrome (suggest using same username and password used as Google)
- > Go to Settings > Extensions
- > Go to Settings > Advanced Sync
